

Digital Skills Training

A free Digisafe course that teaches you to be safe online

About the course

In partnership with UK Power Networks, We Are Group is delivering a free Digisafe course for people who want extra support with staying safe online.

To book a free group session, contact us by emailing digitalskills@wearegroup.com.

Course sessions

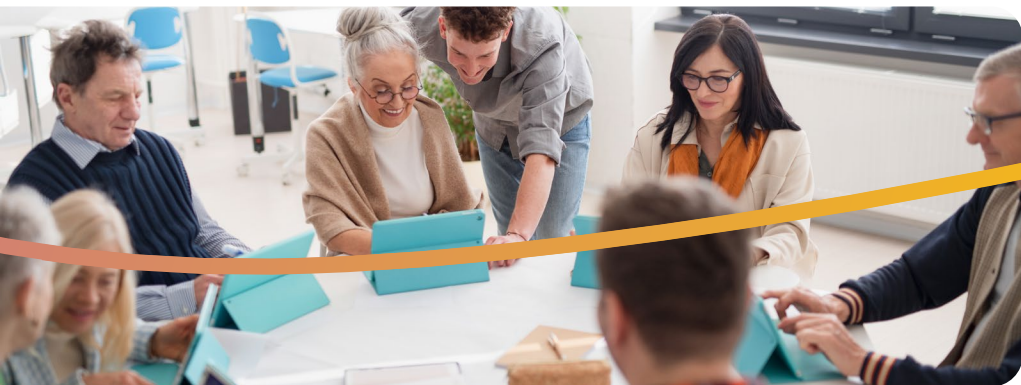

In two sessions, participants will gain essential digital skills to help with every day tasks and also learn how to stay safe online.

Session 1: Essential Digital Skills Training

Covers how to complete regular online tasks from basic device use, device and web browser navigation, to creating and sending emails, and using online forms.

Session 2: Online Safety Tips

Provides the latest tips for scam awareness and energy essentials. This session covers how individuals can register for the Priority Services Register, report power cuts and faults online, access support during outages, and understand energy-related communications.

Who is the course for?

Our free Digisafe course is for anyone who lives in:

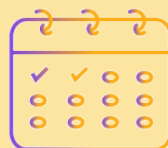

- London
- The South East of England
- The East of England

If you are looking to provide digital skills training for your staff, residents, or local community, all we ask in return is for a suitable space to deliver our course.

Session delivery

6 learning hours

**2 sessions split
into 3 hour slots**

Session details

By booking a group of participants on to our course, you can expect the sessions to be delivered:

In groups of 12 participants per session

Face-to-face ensuring impactful learning

By an experienced digital skills trainer

Remote options can be made available if applicable.
